2. CINE REFLECTORS

THE FULL RANGE: in 5 steps from 0 Diffusion to max Diffusion

- DIFF 0 ● Sharp circular ray of light
- DIFF 1 ● Hard circular ray of light
- DIFF 2 ● Medium circular ray of diffused light
- DIFF 3 ● Soft circular ray of diffused light
- DIFF 4 ○ Maximum diffused reflection

Precision manufactured aluminium coated surface, 97% reflectivity (only 3% loss) & 100% color rendering. You can order separately one of your favorite Diff in each size. The Cordura Speedbag can hold up to 6 Cine Reflectors!

3. GOOD TO KNOW

- With the trolley wheels you can easily transport your CRLS to the set.
- There is enough space inside the case to bulk up your CRLS set with additional Cine Reflectors.

MOUNTING

attach your C-Wheel via the easy access point of the Speedrail on the back of the Cine Reflector.
